

Xu Zihang

Nationality: China
Year of birth: 2008
Hometown: Nancheng County, Fuzhou,
Jiangxi Province
Degree: Undergraduate Student
Languages: Native Chinese, CET-4 English

Phone: +86 18479427768
Email: xu-zh25@mails.tsinghua.edu.cn
Department: Department of Automation, Tsinghua University
Address: Tsinghua Garden, Haidian District, Beijing
GitHub: github.com/xu-zh08

SELF-INTRODUCTION

I am an undergraduate student majoring in Automation at Tsinghua University. I have systematically learned calculus and linear algebra, and mastered their underlying logic in AI modeling. Proficient in C/C++, I independently taught myself Python to complete basic data processing and simple algorithm modeling. During the Artificial Intelligence Introduction course, I studied cutting-edge academic papers and built preliminary understanding of AGI concepts and industry trends. I am capable of analyzing data with mainstream AI tools, with solid skills in reading English research papers, technical documentation writing and team collaboration.

EDUCATION BACKGROUND

2025 – Present Bachelor of Automation, Tsinghua University, Beijing
Core Courses: Calculus, Linear Algebra, Fundamentals of Programming, Circuit Principles

HONORS & AWARDS

2025 Third Prize, 5th Autonomous Robot Dog Competition, Department of Automation, Tsinghua University
Responsible for programming goal-detection logic and full machine debugging of the robot dog.

PERSONAL SKILLS

4.1 Programming Languages

C/C++, Python

4.2 Tools & Software

Git, Miniconda, VS Code, LaTeX, Microsoft Office Suite

4.3 Language Proficiency

Native Chinese; CET-4 English, able to read domain-related English academic papers.

RESEARCH INTERESTS

Deep learning models, Multimodal artificial intelligence.
